stride80®

stride80® Purpose-built to ignite growth!

Accu-Time Systems' new stride80® was built to ignite growth. Whether you are leveraging the stride80 to easily and seamlessly integrate an existing Android application or developing new and interactive employee self-service applications, the stride80 brings a new competitive edge to your business; opening the door to new markets.

With our comprehensive Software Development Kit (SDK) to guide you, you'll be able to quickly deploy your most innovative employee self-service applications; and if you ever need it, our customer support team is here to provide expert support.

stride80® features include:

- Android-based
- 8" Widescreen Touch Display
- Speakers
- Microphone
- eMMC – 16GB Storage
